Environmental Affairs
M.A. Hanna Company
1301 E. Ninth Street
Suite 3600
Cleveland, OH 44114-1824

Dear Mr. Anderson:

Re: L.E. Carpenter and Company
Amended ACO, Signed September 26, 1986
Scope of Work, Risk Assessment, Dated August 8, 1990

The New Jersey Department of Environmental Protection (Department) has reconsidered WSI's letter of August which outlines the risk assessment scope of work (SOW) for the L.E. Carpenter project, and modifies its approval in the August 28, 1990 letter concerning the SOW to include the fishing scenario which was previously deleted.

The reason the fishing scenario should be included in the risk assessment is that the Rockaway River is stocked with fish by the Department and fishermen are "working" the River at the L.E. Carpenter Site. On two separate occasions representatives of the Department met several fishermen returning with their catch of trout from "working" the River. Therefore, please evaluate the fishing scenario in the risk assessment for the site.

Should you have any questions you may contact me at (609) 633-1455.

Very truly yours,

Edgar G. Kaup, P.E., Case Manager
Bureau of Federal Case Management
